

GOING FURTHER

THE INDUSTRY LEADER FOR EXPERT DIAMOND DRILLING SERVICES.

WHO ARE WE?

Deepcore Drilling are widely regarded as industry leaders in underground mobile, acoustic and deep directional drilling for mining and civil operations across Australia's East Coast.

Since commencing operations in Victoria in 2005, the business has seen substantial growth, expanding rapidly to include multiple, multi rig operations on key mining projects within Regional VIC, QLD, NSW and Tasmania.

With nearly 40 rigs currently in operation, we are an innovative leader, providing long term employment, training and career development for all of our 360+ personnel.

OUR FOCUS ON INNOVATION & COMMUNITY

At Deepcore Drilling, we continuously strive for improvement, leading the way in design, safety and environmental innovation including the reduction of our environmental footprint, through our patented (2018 Prospect Innovation award finalist) Sound Enclosure, allowing 24/7 surface drilling operations in semi urban conditions.

As a community and industry partner, we support and raise funds for charitable causes, youth initiatives mentor programs and mental and physical health programs for our workers and the wider community.

OUR COMMITMENT TO SAFETY

Safety is our number one priority at Deepcore Drilling, with various START program initiatives for new starters and leaders in our business.

Our focus on proactive physical and mental health is vital to our employees. START is about:
